

Mitchell Sturba

Software Developer

 MitchellSturba.com |  Github |  LinkedIn |  Mitchellsturba2@gmail.com

EDUCATION

**B.S Computer Science [Honours] -
Specializing in Software Engineering**
University of Windsor - Windsor, Ontario
September 2017 - Present

PROJECTS

Various Mobile Games

- **Sole developer** and programmer of multiple **iOS/Android** based mobile games such as “ShapeShift!” and “Don’t Fall Down!”
- Received **thousands** of downloads with a rating of **4.9/5** among the **Google Play** and **App Store**

Autonomous Vehicle Simulation

- **Utilized** the **Unity** game engine to simulate the behaviour of an autonomous vehicle
- Trained the simulation using **deep learning neural networks** through the **pytorch** library
- **Successfully** simulated the vehicle in multiple dynamic environments

Path Finder

- A **Java** program that lets the user create a maze and watch an algorithm search for the exit
- Uses data structures such as **linked lists** and **queues** to find the **most efficient** path
- Entirely created using the JetBrains **IntelliJ** IDE

EXPERIENCE

Software Developer Intern - Unity

Montreal, Quebec - Remote

May 2021 - Present

- Implemented the **package validation process** in **C#** and **Typescript**
- Ensured packages created by 3rd-parties met a minimum **quality** standard by writing a **suite of tests**

Developer - Tapas Games

Berlin, Germany - Remote

Sept 2020 - March 2021

- **Developed prototypes** of mobile games that were tested for market
- **Utilized Unity game engine** to deliver a product that reflects the final quality of the game

Teaching Assistant - CS Program

University of Windsor - Windsor, Ontario

6 semesters (Sept 2018 - April 2021)

- **Proctored and graded** midterms and exams in courses such as **Intro to Algorithms**

SKILLS

- Proficient in **C, C#, C++, Java, Python, HTML, CSS, and Javascript** languages
- Professional **mobile development** across iOS and Android platforms

HACKATHONS

Winhacks 2020

Windsor, Ontario (March 27-29)

- Handled back-end development of the project website
